

You Will Lose Your Vote Unless You Register Today, October 5, 1915

In order to be able to vote in the City and State Election Tuesday, November 2, (if you live in Maysville) you must register today. You can register at the regular City voting places today any time between 6 a. m. and 9 p. m.

Women must also register in order to vote in the school election.

She was quite deaf when he came round. Unheard was all the gush he'd sling; But later on the fellow found That she could hear a diamond ring.

MR. N. S. CALHOUN

ANNOUNCES FOR MEMBER OF THE BOARD OF EDUCATION FROM SECOND WARD.

Mr. N. Sudduth Calhoun has announced elsewhere in The Ledger as a candidate for member of the Board of Education from the Second Ward.

As this is the most important office to be filled at the coming election, and as our citizens should exercise good judgment in selecting those who are to see that our children receive those things in educational lines that are to mould their future destinies, it behooves the voters to select only the best material that can be gotten, and right here is one for that position.

In Mr. Calhoun we say the voters will make no mistake in electing him, and as he is known by every one, it is useless to tell of his ability. Would that more men like Mr. Calhoun announce for this most important position.

ACTING AS COUNTY JUDGE.

During the illness of Hon. W. H. Rice, who is confined at his home near Lewisburg, Squire Fred W. Bauer is acting as county judge.

PACKED HOUSE

GREETED COBURN'S MINSTRELS AT WASHINGTON THEATER MONDAY NIGHT—ALL NUMBERS NEW—ENTIRE SHOW GOOD.

A packed house greeted Coburn's Minstrels at the Washington Monday night, and those who went were delighted with the excellent performance given.

Although running along the usual rollicking, funny minstrel lines, the show was especially good because of the many new features.

It is almost impossible to mention any particular act as better than the others, but Harry Ford and Bonnie Mack in a "dancing diversion" made a decided hit with the audience.

The Three Pettis in acrobatic stunts were probably the best ever seen on the local stage.

It is almost useless to say that Charley Gano was in a class to himself. The big comedian kept the house in an uproar during the entire performance.

To sum it all up, the whole performance was great, and if you saw it, you know it; if you didn't, you missed many a good laugh.

MARRIED IN NEWPORT.

The friends of Mr. C. F. Haughey, of Mason county, and Mrs. Ella Harney, of this city, will be pleased to know that they were married Saturday in Newport. Both are well known and have many friends who extend congratulations, in which The Ledger joins.

Mrs. J. C. Cablish and sons leave today for Portsmouth to visit her mother and sisters; also to attend the Korn Carnival.

SHORT, BUT SWEET

WAS MONDAY NIGHT'S MEETING OF THE CITY DADS—MEMBER WATKINS REFUSED TO TAKE SEAT IN BODY—MR. THOMAS CUMMINS ELECTED TO FILL VACANCY.

City Council met in the Council Chamber Monday evening, Mayor Lee in charge; all members present, but Member Watkins, of the Fourth Ward. Mayor Lee reported the sum of \$80.33 collected during the last month. The City Treasurer reported a balance of \$2,821.31 in the treasury.

Chief of the Fire Department R. M. Newell reported that the Fire Department answered five alarms during the last month.

The following building permits were granted: Daily Heris, frame outhouse with metal roof, West Second street, First Ward.

Charles Helmer, veranda in front of his dwelling on West Second street, Second Ward.

Sophia and Anna Traxel, frame bay window on their house on East Second street, Fifth Ward.

Elwood Davidson, frame five-room dwelling, Fifth street, Fourth Ward. Charles Bland, two-story frame dwelling, West Second street, First Ward.

Short & Kain, the contractors for the repair work on the Limestone bridge, presented a bill of \$98.30 for "extras." After some argument the bill was allowed.

City Attorney John Calhoun reported that a mistake of \$68.14 had been made in the taxes of the Bank of Maysville.

He also reported that the state had made a mistake of \$197 in the assessment of the Maysville Water Works.

Mayor Lee introduced an ordinance placing a license of \$25 on all public garages. Referred to Law and Ordinance Committee.

A letter telling the Council of his reason for not accepting the seat in that body from Mr. William Watkins, of the Fourth Ward, was read by the Mayor. The letter was accepted and the business of electing a new member was brought up. Member Gantley placed the name of Mr. W. T. Martin in nomination for the vacancy. Member Cullen, of the First Ward, nominated Mr. Thomas Cummins, who was elected by the vote of six to five.

Four \$500 emergency bonds were ordered issued.

The petition of the citizens of the south side of Forest avenue asking that a water main be placed in that street was referred to the Water Committee.

The matter of the damages sustained by Scott's M. E. church by the overflowing of a gutter near that edifice was read before Council and action ordered.

A light was ordered placed before the Holiness church on East Third street.

Council adjourned to attend the minstrel.

MORE GOOD TIMBER

MR. WILL R. SMITH ANNOUNCES FOR COUNCIL FROM THE SECOND WARD.

It is with a great deal of satisfaction The Ledger notes the announcement of the splendid material for Council honors that has been made the last few days, showing people are taking interest in the legislative end of the city government.

Mr. Will R. Smith, the genial shoe-man at Merz Bros., is the latest to get into the race from the Second Ward for Councilman, and nothing we could say will add to Will's popularity or to his being able to represent his Ward in an intelligent manner and satisfactory to his constituents and to the entire city. It is just such timber as Will is made of that is needed to build a better Maysville.

COL. JEFF D. EASTON

KICKED HIS HAT INTO THE COUNCILMANIC RING FOR TWO YEARS' MORE HONOR.

Colonel Jeff D. Easton, of the Second Ward, elsewhere in The Ledger announces for re-election to the Board of Council.

Of all the members of that body, not one has become more popular in two years' service than Jeff, because of his bulldog tenacity in standing up for what he thinks is right, and it is our low to defeat.

BRIDGE COMPLETED.

After a two-weeks' vacation, during which repairs of all sorts and description were made, the Limestone bridge was opened to traffic Saturday night. The bridge will receive a coat of paint from Contractor Simon Crowell and when it is finished it will be in first-class condition.

A GREAT REDUCTION

In going over our stock we find that we are OVERLOADED, and have decided to REDUCE STOCK, and it goes at cost.

This space will not permit us to list it all. One great bargain is 100,000 feet of an EXCELLENT GRADE OF OAK SIDING. This goes at \$2 PER HUNDRED. All other yard stock greatly reduced.

Don't miss this opportunity to get what you want in lumber and building material at the lowest prices ever known in Maysville. Terms at this reduced price are CASH.

LINN ORR WINS

THE PONY AND CART GIVEN AWAY BY THE MERCHANTS OF MAYSVILLE.

At last "the returns are in from Grassy," and Master Linn Orr comes in "under the wire," winning by a nose, defeating Rebecca Gallenstein, James Brent Wood and James Ishmael in a close and exciting contest.

The delay in counting the votes was due to the fact, according to Mr. H. P. Purnell, that they were counted twice to make sure no error could creep in and some child be disappointed.

The pony and cart will be turned over to Master Linn Orr today.

Here is the official count:

| | |
|---------------------|-----------|
| Linn Orr | 2,856,835 |
| Rebecca Gallenstein | 2,819,990 |
| James Brent Wood | 2,348,960 |

JIMALLENFUNNYITES.

So far as the Harrison county tobacco crop is concerned, Mr. Jack Frost is invited to do his darndest.

Referring to the question why some men stay single, recently a Pennsylvania man was divorced, remarried and paralyzed all in one day.

William Rouse, of Bath, Me., is wearing a housecoat made for his father sixty years ago. Little Willie naturally expects to wear father's clothes, but surely not that long.

In a Philadelphia egg-laying contest, Lady Eglantine, a white Leghorn, broke the record by laying 287 eggs in 330 days. Lady Eglantine ought to change her name to Lady Egg-layin'-time.

In a suit to dissolve the Corn Products Refining Company, the government is endeavoring to find what is in beer. It may be difficult to determine what is in beer, but there can be no trouble at Cynthiana in showing what beer is in.

A Muskogee, Okla., preacher raised \$200 from his congregation by leap-frogging over the pulpit every time \$25 was subscribed. Strenuous, but worth the effort. In some places a \$25 subscription would be more apt to paralyze the preacher.

If necessary, it is stated, the nut trees of the world could supply the entire population with food. Looks promising, but if turned loose in the forest in a little while half the population would have the other half knocking nuts for them, and then would come the same old dissatisfaction with one's condition in life. Most people are nutty enough as it is.

The harvesting of the sunflower crop in Fulton county is now well under way and the yield is said to be heavy. From five to twenty wagons and an army of gatherers are in each field, and fanning machines are at work. The seed is being marketed at from 2 1/4 to 4 cents a pound. The yield is from 1,000 to 1,500 pounds to the acre.

REGARD FOR THE LAW.

Ignorance of the Law is no excuse and disregard of the Law is a crime. When Laws are so obnoxious as to afford excuses for non-compliance they should be changed, and the people have this right. "If your right hand offend you, cut it off," was no idle injunction, but means the offense should be removed rather than the mutilation of the member.

Our Tax Laws are distasteful and detrimental, but the remedy should be to amend them instead of allowing them to undermine the morals of the people by openly disregarding them.

The successful evasion of one Law may encourage the violation of others and in time breed a contempt for all Laws.

While every citizen owes obedience to the Laws, the Laws should be made fair and equal to every citizen.

The Tax Laws are neither fair nor equal and are productive of deceit and dishonor and if for no other reason than this should be changed.

UNIFORM TAXATION.

Property differs so greatly in character and earning power it has always been impossible to tax the various kinds uniformly. Every attempt to tax movable property the same as immovable property has failed and will always fail. "Two wrongs do not make a right," and when assessors find it impossible to discover the ownership of movable property and undertake to square things by lowering the assessment of immovable property, there is no right or justice in it and everybody suffers in mind and matter. The more stringent the Law to uncover movable property the faster it moves and hides, and this fact is so well established the assessors in most counties let movable property go by default. So-called Uniform taxation is a delusion and a snare. It may suffice to fool the ignorant, but the knowing ones just laugh at it. This is rough on the poor man whose all is in sight and immovable, and is also tough on the rich man who defies the law and hides his wealth from the assessor, for he knows he is doubly guilty in saving himself at the expense of his less fortunate neighbor.

EQUITABLE TAXATION.

The differences in property call for differences in taxation just as "one star differs from another," and yet all the stars and all the property serve their purposes. The man who puts his money in Securities issued on property already taxed and paying more taxes because of the improvements justified by the man's money is just as useful a citizen as the man who puts his money in lands and houses; but when the first man objects to giving up the greater part of the earnings on his securities, issued on property already taxed, he is looked upon as a tax dodger, and the man with the houses and lands who cannot so readily escape denounces a tax system which seems so unfair. Ask this man to surrender a half to three-fourths of the income from his houses and lands and there would be another tale. The revenue of the first man is limited, while that of the other is unlimited, and yet there are people who cannot see the distinction. Equitable taxation is based on the earning power of all property, in just proportion, and if any partiality is shown it should be in favor of the man who risks his money to improve houses and lands owned by others, which may depreciate, but cannot fly away.

TAX AMENDMENT.

The Tax Amendment was carried by thirty thousand majority two years ago, but because the Secretary of State failed to advertise it ninety in stead of sixty days before the election, as the Constitution requires, it must be voted on again at the November Election. The welfare of the State demands the re-adoption of this important measure and every fair minded citizen should vote for it.

KENTUCKY NEEDS

A good many things to place the State in the rank she deserves in the march of prosperity, but when sifted down the greatest need of all is a new Tax System that will attract instead of repel Capital, which guarantees cheap money for the improvement of farms and development of local industries. Although one of the oldest States, centrally located and with marvelous natural advantages, other and less favored States have outstripped us, and, as someone has aptly said, "Kentucky is an island of comparative poverty surrounded by a Sea of industrial prosperity." And why? The answer is because of our repellent Tax System. Equitable taxation means cheap money. Easy money means improvement and development. Industrial enterprise keeps the people at home and increases the population. More people means more consumers of our home products. Close markets means good prices, and all of this has been retarded because some wise acres borrowed a so-called Uniform Tax Law from another State which had been striving to get rid of it for forty years and which shows that an intolerant politician may not always be a tolerable patriot, or Kentucky would not have been throttled in the way she has been.

DON'T FAIL TO VOTE FOR THE TAX AMENDMENT

ADVERTISING ORANGES.

Competition has become so keen in the orange-growing industry between Florida and California that the growers are advertising their products in various magazines and newspapers.

The Manufacturers' Record of recent date has this to say about the subject:

"Along with better organization and closer co-operation among the orange growers of Florida there is a proposition to more adequately advertise the Florida product than ever before. There is a growing appreciation of the advantage in establishing a high standard for Florida oranges in the markets of the country by better packing methods and the shipment of only the finer grades of the fruit, and on top of this movement is a plan to spend \$60,000 in advertising during the coming year. This is \$20,000 more than has ever been spent by the Florida Citrus Exchange in a previous year."

"During 1914 the California Fruit Exchange spent \$100,000 in advertising, with the result that practically everybody in the country came to know about and yearn for the 'sun-kissed oranges' which the advertisements described."

WISHED SHE COULD DIE

And Be Free From Her Troubles, but Finds Better Way.

Columbia, Tenn.—"Many a time," says Mrs. Jessie Sharp, of this place, "I wished I would die and be relieved of my suffering, from womanly troubles. I could not get up, without pulling at something to help me, and stayed in bed most of the time. I could not do my housework."

The least amount of work tired me out. My head would swim, and I would tremble for an hour or more. Finally, I took Cardui, the woman's tonic, and I am not bothered with pains any more, and I don't have to go to bed. In fact, I am sound and well of all my troubles."

Cardui goes to all the weak spots and helps to make them strong. It acts with nature—not against her. It is for the tired, nervous, irritable women, who feel as if everything were wrong, and need something to quiet their nerves and strengthen the worn-out system.

If you are a woman, suffering from any of the numerous symptoms of womanly trouble, take Cardui. It will help you. All druggists.

"Not only Florida, but Louisiana and the whole coast country may study to excellent advantage the enterprising methods of the far-away California fruit growers and profit by their success in marketing an orange which as compared with Florida oranges is like dried sawdust compared with the most delicious dish that the greatest chef can produce."

The bird never destroys its own nest. The nest is its home, where it deposits its eggs and rears its young. It builds but does not destroy. Are we superior in intelligence to the bird, or is the bird superior to us? Are we seeking to build up and maintain our nests—our stores, and shops, and various other industries? Or are we unintentionally seeking to destroy them by making our purchases from people in other cities who thrive upon the misfortunes of the local merchant or dealer? Think of the bird, and then of yourself.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.

SOME CORN, SURE

BUT KENTUCKY IS FULL OF THIS
KIND THIS YEAR—WHO CAN
BEAT IT!

(Cynthiana Log Cabin.)

Mr. John Martin, of near Lair, re-
cently brought to this office four ears
of white corn which is the finest we
have seen. The corn was raised by
Mr. Martin, on the Quincy Ward farm,
and seems about as near perfect as
the corn experts could desire. The
largest ear weighs 27 ounces, is 11
inches long, 9½ inches around, and
has 26 rows of kernels, which extend
entirely over the small end of the cob.
Another perfect ear, which is slightly
smaller in diameter, is exactly 12
inches long. Mr. Martin holds the blue
ribbon unless some one else can beat
this, and we will have to be shown.

(Bourbon News.)

If the ear of corn on display in the
window at the office of the Paris Wat-
er Company be taken as a sample,
then Hon. J. Hal Woodford is trying
to bull or bear the corn yield of this
county.

This ear of corn, which measures
over twelve inches in length, and is
perfectly formed in every respect, was
taken at random from a field covering
perhaps 150 acres, and is said to have
been the smallest nubb in the field.
Mr. Woodford has been filling the silos
on his place, and had considerable
difficulty in getting hands to cut and
stack the corn on account of its great
weight and size. It is said to be the
most phenomenal field of corn ever
grown in the county and has been the
subject of much comment among corn
growers. Mr. Woodford says that one
of the men he had engaged quit after
cutting and shocking six shocks of this
corn, remarking: "See here, boss, that
corn's a heap bigger an' stouter dan
I is."

HOOKWORM DISEASE.

In 1914 there were eighteen deaths
from hookworm disease, as compared
with thirty-nine in 1913. It is esti-
mated as a result of our sanitary sur-
veys there are more than 200,000 cases
of this disease in Kentucky. It is to
be seen that its death rate is incon-
siderable and plays but a small part
directly to the incidence of the disease.
The victims of hookworm disease are
reduced physically to the point where
they are less efficient and fall an easy
victim to other preventable diseases,
because of their lowered resistance.

REMARKABLE RECORD

THE C. & O. RAILROAD CARRIED
LAST YEAR 269,380,000 PASSEN-
GERS AND NOT A ONE WAS
KILLED.

The annual report to stockholders
for the fiscal year ended June 30, 1915,
which has just been issued by the
Chesapeake & Ohio railroad company,
reveals some interesting facts. The
total operating revenues were \$39,464,-
037, as compared with \$37,459,864 for
the preceding year. The operating ex-
penses were \$27,556,413 as against
\$26,413,899 for 1914. The number of
tons of freight carried amounted to
30,048,454, an increase of 2,326,439 for
1914. The number of passengers car-
ried was 6,487,803, a decrease of 3,-
453. The number of passengers car-
ried one mile amounted to the enor-
mous total of 269,380,000, not one of
whom was killed in a train accident.
Very large sums were spent in
maintaining the property, the expendi-
tures for maintenance of way and
structures amounting to \$4,649,522,
and for maintenance of equipment \$8,-
243,170, both items representing large
increases over 1914.

The average rate per ton per mile
on freight decreased 6 per cent, as
compared with 1914, being now 3.84
miles. The average rate per passen-
ger per mile was 2.115 cents.

A very considerable gain in operat-
ing efficiency is shown. The average
revenue train load was increased thirty-
six tons, being now 906 tons, which
establishes a record for roads of the
Chesapeake & Ohio's mileage, length
of average haul and operating condi-
tions.

MILD WINTER

IS THE DOPE HANDED OUT BY
THE CATERPILLARS.

According to "scientific" omens,
more especially to species of cater-
pillars which abound and thrive in this
section, there will be no winter this
year worth mentioning. So far as
this fuzzy crawling worm is concern-
ed, the thing has been definitely de-
cided. The predictions of the weather
prophet presumably have no bearing
at all on the situation.

This is why there will be no win-
ter:

Neither the heads nor tails of these
fuzzy caterpillars are black.

The omen explicitly says that
either the head or tail must be black.
Then, and only then, will Mason coun-
ty shiver in frigid weather.

As a matter of fact the heads and
tails of caterpillars are red. Now
that's not according to rules. So the
sage says that there will be no winter.
If the head had been black the cold
part of the winter would have been
first and vice versa.

Also the country's corn crop is a
bumper one because there was a su-
per-abundance of locust blossoms this
year. Some farmers are said to swear
by this omen.

SPLENDID ADVICE

EDITOR NELSON, OF THE WIN-
CHESTER DEMOCRAT, TELLS
HOW TO SCARE AWAY "SPOOKS."

Every man, woman and child is a
musician. When God created man he
gave him a simple musical instrument
and nature taught him to use it. That
instrument is the human "whistle,"
and its merry tune is known wherever
human feet may wander. Whistling is
more common in southern climates.
We were once compelled to spend
some six months or more in a busy
city of 20,000 without hearing a man
whistle—that is, except ourselves. We
missed that whistle more than any-
thing else.

When one is blue, the whistling of
some snappy tune is like a tonic—it
brings joy. It is used by the small
boy to keep up his courage when
walking through a graveyard after
dark or past the "haunted" house;
and it works.

Should the little article chance to
find you gloomy, just lay the paper
aside and begin whistling "Honey
Boy," "Tipperary," "Dixie Land," or
some other snappy tune and watch
the effect.

CAN NOT BE SIDETRACKED.

The Wilson campaign was got ready
for launching somewhat prematurely;
his eager supporters should have wait-
ed until Germany's last reply was in
hand. Meantime it may be well to
understand that the tariff issue can
not be sidetracked by any tedious dip-
lomatic transaction.—Morgan City

can be said of the war in Europe.

COMMISSION FORM OF GOVERN- ERNMENT.

The other day we presented some
facts concerning the commission form
of government from Phoenix and Tuc-
son, Arizona. In today's Ledger, we
come a little closer home. From
Springfield, O., we gather these facts:
At the beginning of the year 1914,
the city of Springfield had a floating
debt of approximately \$100,000. By
February 20, 1915, \$51,000 of this de-
ficit was wiped out, saving the tax-
payers of the city over \$3,000 a year
in interest.

Mr. Taxpayer, how much has the
floating debt of Maysville been reduced
in the last year? Read—think!

In Springfield the average life of the
bonds issued is five years or less, saving
the taxpayers the necessity of paying
interest upon bonds until the inter-
est amounts to more than the principal.

Query. Are there any outstanding
bonds or notes on the city of Maysville
upon which interest has been paid more
than the principal? Don't all
answer at once.

The legal advertising in Springfield
for 1914 cost \$549—a saving over 1913
of \$10,571, for that city.

In Springfield the fire hose is now
being purchased under the direction
of the city commission for 53 1-3 cents
thick which formerly cost from 90
cents to \$1.15 per foot for the same
hose, and this hose has met every re-
quired test.

Mr. Taxpayer, do you know what
fire hose costs Maysville?

In Springfield, under the direction
of the city commission, the old square-
head gas lamps have been changed to
the improved boulevard lamps with
street names, and in the ten year light-
ing contract the city commission saved
\$5,545 per year of the city's lighting
bill.

In Springfield there were 518 fewer
arrests for drunkenness in 1914 than
in 1913, due to the fact the saloons
are observing the law.

In Springfield, property owners
who are assessed for improvements
pay for actual cost only and no more.
Before the commission form of gov-
ernment, bonds were issued before
the improvements began, while now
they are issued after the work is com-
pleted and the cost accurately deter-
mined, thereby saving property owners
the interest and principal upon excess
bonds.

In Springfield a detailed report of
city affairs has been printed by the
city commission. This report shows
clearly the various purposes for which
taxpayers' money was spent.

Mr. Taxpayer, an election of city
officials comes in November. Does it
not pay to compare your city manage-
ment with other cities? We are all for
Maysville. We want a better Mays-
ville. It is only by comparing and
studying the good points and making
them ours that Maysville can grow and
come into her own.

INFANTILE PARALYSIS.

There were thirty-one deaths from
acute anterior poliomyelitis in 1914,
as compared with ninety-eight in 1913.
The death rate in the twelve months
from August, 1911 to August 1912, was
much larger on account of the occur-
rence of an epidemic of this dis-
ease in Covington and Newport. Since
then there has been no acute out-
break.

If First Chief Carranza is anything
like many of the Mexican generals, the
title of "first thief" would be appropri-
ate.

The new and up-to-date night gown

UBIQUITY OF DIPHTHERIA BA- CILLUS.

It has long been known that dipht-
heria germs are present in the
throats of many perfectly healthy per-
sons and that many cases of this dis-
ease may be accounted for only by
their infection from such "carriers."
To what extent these germs occur
among healthy persons has been a
point that has never been definitely de-
termined, some workers claiming that
as many as one in every twenty per-
sons carried these germs and distrib-
uted them more or less indiscrimin-
ately. To determine this point the U.
S. Public Health Service conducted an
investigation of the prevalence of dipht-
heria carriers in the city of Detroit
during the winter of 1913-14. This in-
vestigation stands as one of the most
thorough and painstaking researches
of its kind.

Should this report be read by all of
the inhabitants of Detroit, over 4,000
of them would recall the visit of the
Health Officer who examined their
noses and throats and took "cultures"
from both locations.

In the laboratory the officers of
the service examined the 8,758 cultures
taken from 4,093 persons; five bacteri-
ologists examined the "smears" from
an average of 158 cultures a day. The
results of this examination were that
very nearly 1 per cent—928 per cent
to be exact—of all the persons exam-
ined, was found to carry diphteria
germs in their throat or nose or both.

One per cent does not ordinarily
sound large to the average person, but
let us see what it means to the indi-
vidual. In time of epidemic preva-
lence probably one in every hundred
persons he meets has diphteria germs
in his throat and in all probability on
his hands and clothes as well, since
it is one of the most common prac-
tices in the world to put the hand to
the mouth. It is probable that the av-
erage individual comes in contact with
a hundred or more persons every day
and is hence practically daily expos-
ed to infection with diphteria. Some
persons, mainly those remaining at
home, associate with but few, but other
members of the household are not
so isolated. School children come in
close contact often with more than a
hundred others in a day. Occasionally
one may even see a hundred persons
on a single street car and none will
doubt that many more than that num-
ber cough into the air of a moving pic-
ture theater during an evening.

To demonstrate further what 1 per
cent means, let us see what are the
actual figures. In 1914 the official
census of Detroit was 537,650. One per
cent of this is 5,376. It would be dif-
ficult for any one living in Detroit to
avoid contact with one, two, five or
more of these 5,376 disseminators of
diphteria germs. Nor is there reason
to believe that in time of epi-
demic the figures for any other large
community are lower in proportion.

These data gathered by the Public
Health Service, as well as data of the
same nature obtained by other work-
ers, demonstrate one of the many rea-
sons for personal care of the throat
and nose, avoidance of intimate
contact with others, and the necessity
of early preventive measures in the
case of those suffering from "sore
throat" and lesions suspicious of dipht-
heria.

PELLAGRA.

There were 144 deaths in 1914 from
pellagra, as compared with 107 in 1913.
This disease is on the increase in this
state and it seems but a short time
until it becomes a serious public
health matter, as it has in North Car-
olina, South Carolina and other south-
ern states.

A HARD TASK

IF YOU DON'T THINK IT IS, JUST
TRY IT—EDITOR GIVES THE
NEWS OF HIS BROTHER'S CON-
VICTION.

In the Central City (Ky.) Argus,
the editor, Mr. C. E. Gregory, performs
the very difficult task of giving the
news of the verdict in the case of
his brother, Eli E. Gregory, former
president of the Central City Deposit
Bank, as follows:

"In Circuit Court Wednesday after-
noon Eli E. Gregory, former presi-
dent of the Central City Deposit Bank,
entered pleas of guilty to two of the
charges against him and was sen-
tenced to from thirteen to fifteen
years in the State Penitentiary. Thus
ends a career once full of great prom-
ise. The defendant at the bar of-
fered no defense; excused no deposi-
tors from the juries; asked no mercy
from the court or any one else con-
cerned. He did not say that the then
insolvent Central City Deposit Bank
was unloaded on him when a mere
boy by one or more Owensboro crooks,
as he might have done. He did not say
that a number of local crooks pushed
him deeper in the mire, as he might
have done. He did not appeal to
scores of persons he had helped out
when in distress, as he might have
done. He did not call upon a number
of young men and women he had help-
ed through college, as he might have
done. He did not point to the splen-
did school building here on which he
met the payments when the school
fund failed, as he might have done.
He did not tell how he advanced the
living expenses of local coal miners
when the mines were shut down, as he
might have done. He knew that he
had violated the law; he knew that he
had caused much suffering; he knew
that he had speculated and lost, and
he knew that for all these things he
must pay the penalty, so he did it like
a man. He has asked the editor of
this paper, his brother now just as
ever before, to say for him that he is
ready and willing to pay the penalty,
and if it is any consolation to his de-
positors to see him in stripes for the
rest of his natural life if need be, he
stands ready for the sacrifice. He has
and we have no criticism of the court,
of the prosecutors, of the jurors, of
the witnesses or of any one connect-
ed with the cases in any way. There
are a few human hyenas and viperous
vultures who show an inclination to
sink their claws into or vent their
venom upon every one of the Gregory
name, even unto the second and third
generations. To such beasts and ver-
min we want to say that the rest of
the Gregorys, innocent of wrong-do-
ing, are going to hold their heads just
as high, look into any man's eyes just
as straight, and tell him where to go
just as promptly as they ever did be-
fore."

SIGNS OF DANGER

That Should Be Heeded By Maysville
People.

There's serious danger in neglecting
any weakness of the kidneys. The
warning that Nature gives should not
be overlooked. If troubled by too fre-
quent passage of the kidney secre-
tions; burning or scalding; if the se-
cretions are highly colored and con-
tain sediment when left standing—if
you have backache, too, with frequent
headaches and dizziness, make up your
mind that your kidneys are affected
and begin using some reliable kidney
remedy. Deaths from kidney disease
have increased in the United States
alone, 72 per cent in the last 20 years.
The risk is too great—you can't af-
ford to delay. Maysville people re-
commend Doan's Kidney Pills. Can
you ask for better proof of merit than
the statement of this Maysville resi-
dent?

W. F. Lynch, 127 West Third St.,
Maysville, says: "My kidneys were
weak and the passages of the kidney
secretions were scanty and painful.
Having used Doan's Kidney Pills be-
fore, I again got a box and they quick-
ly restored my kidneys to a normal
condition."

The average attendance for the first month is 914, making a percentage of attendance based on number remaining of 93.

The close of this month finds us well organized in all of our departments. Everything is moving along very nicely indeed. I feel quite sure that we have the best faculty in the High School this year that we have had since my tenure of office began.

We have thirty-two girls in the cookery department and forty in sewing. In the commercial department we have twenty taking typewriting, twenty-one stenography, forty-seven bookkeeping and sixty-six penmanship and spelling.

We have introduced the Literary Digest as a text-book in the sophomore and junior history classes and in senior English. Some of these copies have been paid for out of the Lyceum funds, and a great many pupils have subscribed for the Digest for their own use. The publishers make a special rate of 5 cents per copy for school use. We want our High School students to form the habit of reading history, literature, science and inventions as they are being made. We are trying to lay more stress on things that really concern our relations with society and less on many of the traditions of history that have been handed down from ancient times.

The report cards of the previous month will be given to the pupils on the first Monday of each school month. Parents are requested to examine them and note any grades that are unsatisfactory. It is our aim to do the very best possible for each child, and, consequently, we want to work in harmony with you. We wish that all parents would note the stand taken by the Forest Avenue Parent-Teacher Association, when they recommended at their last meeting that all entertainments, dances, etc., which keep students to the wee small hours of the morning, be deferred until Friday or Saturday nights. It is a physical impossibility for a young person to keep awake all night and then study the next day. The only thing that we can do in a case of that sort is to send them home and let them sleep. Should parents act conjointly in this matter, it will not work a hardship on any one. If just a few would take this suggested attitude, they might perhaps be ostracized unless the movement was general, and, for that reason, we are respectfully requesting that all of the parents and patrons note the reasonableness of this request and grant it.

W. J. CAPLINGER.

COUNTY COURT.

A paper bearing the date of June 9, 1915, said to be the last will and testament of the late Charles Cook, was produced in court and upon the testimony of the attesting witnesses, Charles K. Berry and F. M. Costigan, was admitted to probate.

Mrs. Alice Cook, named in the last will and testament of Charles Cook, deceased, was made executrix of his estate, without surety, as requested in the will.

BOAT THIEF GIVEN FROM ONE TO THREE YEARS.

A CARD.

To the Voters of the Thirty-first Senatorial District, Composed of Mason and Lewis Counties:

Upon a very pressing call from all parties to enter the race for Senator, I hereby accept the call, and will make the race, and if elected to this most important office, will pledge myself to look after the interests of our citizens.

And upon questions of issue, especially a better system of taxation, will vote on the side that has in view the uplift and betterment of our people.
L. M. COLLIS.

The above card of Squire L. M. Collis speaks for itself, leaving nothing to be added save a few words as to Mr. Collis personally. Mr. Collis is a native of Mason county, and has spent his entire life among us. He represented his district for six years as Magistrate and a member of the son Fiscal Court, and his untiring efforts to be fair to the taxpayers of the entire county won him lasting friends. He is now a miller and farmer, devoting his life to a successful end.

I dry clean and take orders for Ed. V. Price. C. F. McNamara, 6 1/2 West Front street.

YOU AND YOUR FRIENDS

are cordially invited to attend the demonstration of our fine teas and coffees at Bierley's Confectionery Wednesday, October 6, noon and evening, by the Maysville Tea and Coffee Co. Respectfully yours,
FRED AND JOHN ARN.
